THE GOAL

Prestige VIP is a cutting-edge international private medical insurance plan designed to provide Canadian individuals and corporate groups with seamless access to world-class healthcare services. Whether at home or abroad, this plan empowers clients to expand their healthcare options with the freedom to choose any hospital or doctor, without restrictions.

At VUMI® Canada, we go beyond coverage to safeguard both your health and financial well-being through high-quality, personalized medical services tailored to your unique needs.

Our mission is simple: delivering the right care at the right time.

THE CANADIAN REALITY TODAY

In 2024, Canadians faced an average wait time of 30 weeks between referral from a general practitioner to receipt of treatment.

EXAMPLES OF WAIT TIMES:

Hip and knee replacements 57.5 weeks
Hysterectomies 20 weeks to 90 weeks

WAIT TIMES CAN, AND DO, HAVE SERIOUS CONSEQUENCES:

1 Increased pain and mental anguish.

2 Poorer medical outcomes, transforming potentially reversible illnesses or injuries into **chronic, irreversible conditions** and permanent disabilities.

3 Work schedules are disrupted.

4 Patients may also **lose wages** while they wait for treatment. The estimated cost of waiting for care in Canada was approximately \$3.5 billion in lost wages in 2024.
